

CALLING ALL BOOK AND FLOWER LOVERS

Barry Ferguson's passion for plants, particularly flowers, began when he was a child.

It was a passion that eventually landed him in Manhattan where he designed floral installations for David Rockefeller, Malcom Forbes, Steven Spielberg and many others.

Barry Ferguson, *Flowers Are My Passport*

A job offer in New York presented exciting challenges and Barry loved all the Big Apple had to offer. With hard work, creativity and charm he soon had his own company where he designed gardens and floral installations for special events and the high-fliers of New York.

Bring a friend and join us for morning tea at this free monthly event:
